

## **Respite Care Program**

***The purpose of our Respite Care Program is to cater to the needs of the individual who is in need of additional care and assistance when transitioning from a brief hospital stay or skilled nursing stay with the intent of returning to their own home, or would greatly benefit by making Bright Oaks their new home.***

The time an individual will utilize the Respite Care Program will vary based on their individual care needs. Therefore we offer a per diem rate as opposed to a monthly rate. The minimum length of stay is 14 days. There are two levels of care within the Respite Care Program - they are outlined below along with their respective per diem rates:

### **Respite Care Base Program - \$150/day**

- Fully furnished Studio Master Suite.
- Wi-Fi.
- Cable TV.
- Local Telephone service.
- Three family-style meals and snacks prepared by our Culinary Team.
- Housekeeping, Personal Laundry & Linens service.
- Use of all community common areas and amenities.
- Access to Daily Community Activities, Fitness, Wellness and scheduled Bus Outings.
- Medication Reminders to ensure compliance and comfort for your medication regime.
- Assistance with scheduling of and transportation to any follow up physician visits within a 10 mile radius – a separate fee of \$25 is associated with transportation services beyond the 10 mile radius
- Assistance in your physician prescribed therapy services – Physical Therapy, Occupational Therapy and Speech Therapy.

- 24 Hour Personal/Emergency Call System.
- Access to 24 Hour Licensed Nursing Staff onsite for emergencies.
- Bright Oaks Health Services Director can assist in developing a plan to ensure your needs are met after leaving Bright Oaks including medication management, home safety, counseling services, therapies, fitness, nutrition and continued social engagement.

### **Respite Care Plus Program - \$225/day**

- All of the above, and...
  - \*\*Medication Management & Administration of Medications.
  - \*\*Assistance with Activities of Daily Living (dressing, bathing, toileting, etc.)
- A specific, individualized Care Plan will be developed for you.

If it is determined that there is a need to move-up to the Care Plus Program during an individual's stay, Bright Oaks can easily accommodate this transition and the per diem rate will be pro-rated accordingly.

If the need for Respite Care exceeds 30 days, the per diem rates will transfer to monthly fees for Room & Board and separate Care Level fees will apply as identified by an assessment.
